Sanner's Lake IR5050-style Rimfire Benchrest Match Report
2 September 2018
Weather: Hotter and humider!

Several shooters shrugged off the heightened heat and dismally damp dew point and managed to make it out to the range to shoot between the sweat drops at the September IR5050-style match at Sanner's Lake. All of the competitors were veteran benchrest shooters but several were trying out new or upgraded rifles to see how they performed under match conditions. Mark Swierczek was shooting his silhouette rifle and was pleased to find out it did nearly as well with the cheaper (relatively speaking) ammo as it did with the pricey stuff, taking first place in the combined and individual score categories. Looks like he'll be sticking with that rifle/ammo combination for silhouette matches! Mike Bourque and his 10/22 posted consistently strong scores to take second place in the combined score category with a strong 614-3X, while Frank Torbert was still dialing-in his Ruger Precision Rimfire rifle but managed to put it all together on his last string with a decent 213-2X. See all the detailed results below. The next (and last) match of the year is currently scheduled for 7 October, although the club calendar currently shows a conflict with Appleseed that weekend, so stand by for an updated schedule...
