

**SLSC NRA Approved High Power Rifle  
Match Report and Results Bulletin  
26 August 2017  
Match Report**

It was a beautiful day to shoot with the humidity finally going away today. Turnout was low again, but everyone who shot had a good time regardless of the score they fired.

The iron sighted AR-15's dominated today with Mark shooting the highest score and Paul right behind him. The optical sight shooters experienced some growing pains what with optics being new to NRA high power rifle competition. I'm sure the scores will be better at the October match when we shoot the National Match Course again.

Our next match will be the High Power Sporting Rifle match on September 23<sup>rd</sup>. This is a great introduction to HP rifle completion match and I urge you to give it a try. More details will be forthcoming as the match date nears.

Thanks for the faithful few competitors who keep this program afloat. Let's see some new faces at our next match. And don't forget the Woodstock match on September 21<sup>st</sup> you folks with old military rifles who are just itching to shoot them.

Dick Chadwick, Match Director
