Match Report**

It was a fine fall day with cool crisp autumn breezes blowing the leaves off the trees but not gusting hard enough to affect the trajectory of a rifle round at our monthly high power (HP) rifle match. Yours truly couldn't make it due to unforeseen circumstances so Mark Swierczek stood in and managed to pull off a fun and safe match. Iron sights won the day once again with Jake Swierczek making the drive back from WV and shooting an excellent 464-4x with his M1A to take match winner honors. John Casilio was back at Sanners after a short absence and took second place using his AR equipped with optical sights. Paul Stephens rapidly worked the bolt of his Springfield during the rapid fire strings and won points for style in spite of a few saved rounds. And David Zeigler needed both a front and rear sight adjustment to get his AR on paper during the sighting-in period but with the always-available help of fellow shooters was on target and in the black in no time.

The next match will be the always-enjoyable Vintage Military Rifle match on November 18th. This match is a great way to stretch the legs of those old military warhorses you've been babying on the bench at the monthly Woodstock match and see what they can do under more stringent shooting conditions. Details will be forthcoming as the match date nears.

Sorry I couldn't be there. Many thanks to Mark for running the show and a hearty welcome back to John. And thanks to you faithful few who keep showing up to keep the program alive. I hope to be at the next match on November 18th but it will most likely be on crutches depending upon when my knee operation gets scheduled.

Dick Chadwick, Match Director
