

**SLSC High Power Vintage Military Rifle Match  
19 November 2016  
Match Report**

It was a beautiful day for shooting and eight competitors showed up to exercise their vintage "assault rifles". Six were the usual suspects and two new faces showed up to join the festivities. Paul led the way with a clean 100-3x in the slow prone stage and wound up with a fine 282-4x for the overall highest score. He was shooting a Springfield with aftermarket sights in the Modified division. Jake, who was home for Thanksgiving from WVU, led the As Issued shooters with a nice 273-3x firing a British Enfield.

This match concluded our season's competitions. We will have approximately the same program next year and are waiting for the Board to approve the dates presently requested. I'll have more info on that as I learn it. We expect to have another "Frozen Chosin" match when the weather is suitably nasty for it. Details will be forthcoming. Many thanks to the loyal riflemen who have helped keep high power rifle competition alive here at SLSC. I hope that some of you who we didn't see much of this year will return to the fold and give HP rifle another try in 2017.

Dick Chadwick, Match Director

**As Issued Scores**

<b>Name</b>	<b>Rifle/Caliber</b>	<b>Prone Slow</b>	<b>Prone Rapid</b>	<b>Standing</b>	<b>Aggregate</b>	<b>Place</b>	<b>Special Category</b>
