

**SLSC NRA Approved High Power Rifle Match**  
**Match Report and Results Bulletin**  
**26 October 2019**  
**Match Report**

We had three new shooters join the usual suspects Saturday to shoot the NRA Approved match. That gave us eleven competitors which although not the turnout some of the club's events attracts was better than average for our high power rifle program. The new shooters vowed to a man that they would be returning.

John Casilio had an especially good day shooting a scoped AR-15 service rifle for a 462-1X , an Expert class score, to earn Match Winner honors and that score was also the high optical sights score. Paul Stephens held off the Swierczek family riflemen who usually win the metallic sights for the high metallic sights score of 446-6X. Trevor Graves was the high junior with his Sharpshooter class score of 436-2X. A couple more scores like that and he will be getting his Sharpshooter card.

My thanks to all the shooters for showing up on a beautiful shooting day and for their help setting up and tearing down the range. And special thanks to John and to Mark for running the second relay. Also special thanks to Ryan Moore, Cody's father. The Moores were the first to show up after I got to the range and they pitched right in getting the range set up working as hard as if they were members, not guests.

Our next high power rifle match will be the Vintage Military Rifle match on November 16th. More info will be forthcoming as the match date nears. If you are lucky enough to own some vintage military iron, especially M1's, M1A's or the like this match is a great opportunity to see how well you can shoot them. AR-15's are NOT vintage enough for this match. Read the match program for more info. Contact me by e-mail if you would like a copy of same.

Dick Chadwick

**Results Bulletin**  
**Service Rifle (Metallic Sights)**

Name	Class	Rifle	Standing Slow	Sit/Kneel Rapid	Prone Rapid	Prone Slow	Aggregate	Place	Special Notes
