

## Sanner's Lake IR5050 Rimfire Benchrest Match Report 2 May 2021

A sunny Sunday made for a pleasant start to the 2021 rimfire benchrest season as the May IR5050-style match kicked off at Sanner's Lake, but gusty winds made the challenge of precise bullet placement difficult but not impossible as the results came in with decent scores across the board. Greg Banta took the top spots in both the individual and combined categories, showing that you can work with the wind to put the rounds where you want them...though it helps if you have multiple wind flags downrange! Right behind him in the combined category were Pat Farrar and Dick Chadwick, with some very consistently consistent scores. Dick's scores were all within 7 points from high to low, while Pat managed to tie himself on his first two strings, right down to the same number of X's! In the individual category, it was Jeff Potts and Asher Maroot both scoring a 233 to take second and third place, with Jeff's higher X-count barely beating out Asher and keeping the pressure on Greg in the top spot. See the summaries of all the scores below.

Thanks to everybody for kicking off the season with a strong turnout. Next match is on 6 June, see you there!
