

Here are the results for today's Rim Fire Sporter match. Note there were a couple corrections to math errors. We had a great turnout with six shooters. It was a terrific sunny day with little wind to no wind.

Name	Stage 1	Stage 2	Stage 3	Stage 4	Stage 5	Stage 6	Total	Rifle	Sights	Class
Chris DeBons	82	92	86	91	83	78	512	10/22	Scoped	T
Robert Smith	80	93	73	83	80	84	493	M&P	Open	T
Kenneth Senechal	90	82	72	88	69	56	457	AR	Open	T
Carrol Smith	68	61	73	68	71	64	405	10/22	Scoped	T
Connor Senechal	61	64	81	51	62	34	353	AR	Open	T
Terry Wanner	59	68	48	58	60	53	346	Sig 522	Scoped	T

Everyone chose to shoot in the T class today, some with irons and some with scopes. The winner was Chris DeBons with a 67 10/22 sporting a vintage scope. Bob Smith came in second with his trusty M&P and Ken Senechal third shooting an AR type 22. T- Class is scoped or non-traditional. Non-traditional is anything that looks like a modern sporting rifle.

Due to a match director error, Terry and Chris shot using B-19-C centers as we had run out of targets. Once those ran out the shooters made due with pasties. Targets had been ordered well in advance and it turns out are stored safe and sound on the floor in my garage where I left them. I could have sworn I brought them in and locked em up. Now I remember it was the ARC targets I put in the range house. In any case we are going to be ready and able to conduct the next match and won't be using pie plates.

Very glad everyone could make it. Looking forward to our next event this June. I have attached the Rimfire Sporter Guide. There is this and much more info on the CMP website.
