

Sanner's Lake Woodstock Match Report
3/17/2016

It was a balmy springtime afternoon and seven shooters manage to slip out of work and get to the range to ring in the new shooting season at the inaugural Sanner's Lake Woodstock Match of 2016.

Retro rifles filled the range to capacity (almost) as guns from around the world battled it out for bench supremacy. The scores were excellent and the competition was intense, with several numerical ties (including X count) being decided by either the highest individual string (for combined scores) or fewest hits of lowest value (for individual scores).

Dick Chadwick proved that a rack-grade Garand can hold its own with the best the world can bring, taking top honors for both the individual and combined three-target scores. Right behind him in the individual and combined categories were Brett Hartman from Australia with his Lee-Enfield No. 4 MkII and Mark Swierczek with his Springfield M1903 Mark I. All of the scores and details are listed below.

And in a pleasant change of pace, no major mechanical malfunctions occurred during the match, so apparently the winter rest did everybody some good! We'll see how well things holds up as the season progresses...usually some on-the-spot maintenance can be expected here and there, for both the rifles and shooters!

The next Woodstock match is scheduled for 21 April 2016. With the days getting longer, there's no excuse not to get your old warhorse tuned up and dialed in to see if she can still bring the heat during the heat of summer!
