

## Sanner's Lake Woodstock Match Report - 5/19/2016

The weather was balmy but the shooting was blistering at the Woodstock match last evening, with Jeffrey Moe and his '03-A3 Springfield taking top individual and top combined honors with some seriously good scores from a vintage iron-sighted gun! Right behind him was Paul Stephens showing everyone that the classic British Enfield No.4 Mk1 can bring the heat as well. Jake Swierczek brought the oldest gun of the day; a historic 1884 Model "Trapdoor" Springfield from 1889 and managed to score a very impressive 88-1X during his first string! However, the vintage-style black powder .45-70 ammo started acting up during the second string with some rounds tumbling and resulting in misses. A few swabs with a patch and a switch to a somewhat more modern (but still vintage-style) 405-grain smokeless rounds resulted in the Trapdoor getting back on the paper and scoring well. Scores and pictures from the match are included below. If you want to see what a keyhole impact from a 500 grain, .45 caliber slug looks like, check out the second picture!

The next Woodstock match is scheduled for June 16<sup>th</sup>... see you there!
